Greenfield House Resource Centre

A purpose built resource centre, Greenfield House offers supported therapeutic activities and care to people with physical or learning difficulties and those living with frailty or dementia.

We use our light, spacious activity rooms and lovely garden flexibly to provide choice and variety for our customers.

Our vibrant team are highly trained and experienced in helping people with a wide variety of conditions. They work hard to provide a fun, inclusive environment and meaningful, therapeutic activities.

We put a high value on socialising and exercising personal choice and will always ask for input and preferences when arranging activities and offer support and encouragement with continuing hobbies or pastimes that people already enjoy.

We currently offer both group and individual activities ranging from crafts, quizzes, skittles, board games to giant scrabble, led discussions, reminiscence and singing.

Other activities include;

Sensory and life skills cookery.

Making cakes and biscuits or lunch as a group. This is popular as everyone can enjoy the results! It's also great for customers to learn or refresh life skills.

Gardening.

Our garden is planned, planted and looked after by customers and staff.

IT Suite.

We have a fully networked computer suite with internet access where customers can learn how to use different computer programmes and enjoy group activities.

Day trips.

Regular trips are on offer. They include ten pin bowling, garden centre visits, shopping and pub lunches.

Entertainment.

We have entertainment from visiting theatre companies, musicians and singers. Everyone is encouraged to join in.

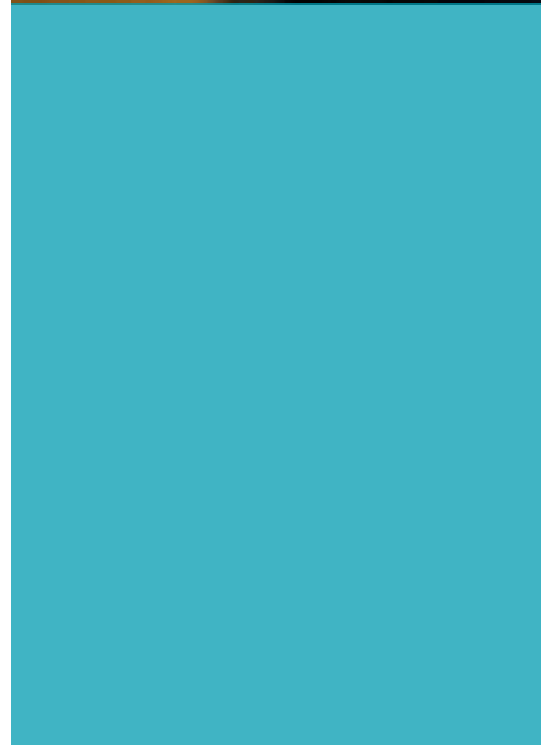

Gym room.

Our Gym room has specialist equipment and our staff are fully trained to supervise sessions. Individual assessments can be arranged.

Optimusic.

Our Sensory Room has an Optimusic computer system that produces a variety of lights and sound that can be controlled by movement. This can be used to provide calming, stimulating and creative environments.

Our vision and mission are underpinned by our core values; Respect, Inclusion, Compassion, and Empowerment.
