Executive Summary

Preparation of the Local Plan

The Annual Monitoring Report (AMR) monitors and reviews the progress made with the preparation of the Local Plan and the extent to which planning policies are being successfully implemented. A separate AMR is produced for the Minerals and Waste Local Plan.

The Local Plan for West Berkshire comprises the West Berkshire Core Strategy, adopted in July 2012; the Housing Site Allocations Development Plan Document (HSADPD), adopted in May 2017 and the Saved Policies of the West Berkshire District Local Plan (WBDLP) 1991-2006. The Local Plan forms an essential part of the Development Plan for West Berkshire and sits alongside the Replacement Minerals Local Plan for Berkshire (RMLP) incorporating alterations adopted December 1997 and May 2001; the Waste Local Plan for Berkshire (WLP) adopted December 1998; the Stratfield Mortimer Neighbourhood Development Plan which was adopted in June 2017 and South East Plan Natural Resource Management Policy 6 which deals with the Thames Basin Heaths Special Protection Area.

The Local Development Scheme (LDS) sets out the timetable for the preparation of the Local Plan. The AMR reports on progress towards meeting the timetable in the LDS. The current LDS was published by the Council in January 2018.

Progress on the Local Plan has been as follows:-

- The Statement of Community Involvement (SCI) adopted in September 2014 and amended in January 2015
- The West Berkshire Core Strategy DPD (the Core Strategy) adopted on 16 July 2012
- Housing Site Allocations DPD adopted on 9 May 2017
- West Berkshire Local Plan Review to 2036 work on the Review of the Local Plan is underway. Regulation 18 consultation carried out February/March 2018 and in November/December 2018.

The following current Supplementary Planning Documents (SPDs) add detail to the policies in the Local Plan:-

- Market Street Planning and Design Brief SPD was adopted in June 2005
- Quality Design West Berkshire SPD was adopted in June 2006
- Sandleford Park, Newbury SPD was adopted in September 2013
- Pirbright Institute site, Compton SPD was adopted in September 2013
- Planning Obligations SPD was adopted on 11 December 2014. It came into effect, alongside the Community Infrastructure Levy, on 1 April 2015

SPDs are capable of being material considerations in planning decisions but are not part of the Development Plan.

Progress on Neighbourhood Plans has been as follows:

- A Neighbourhood Area for the parish of Tilehurst was designated by the Council on 29 May 2015
- A Neighbourhood Area for the parish of Compton was designated by the Council on 11 January 2017
- A Neighbourhood Area for the parish of Burghfield was designated by the Council on 1 March 2017
- A Neighbourhood Development Plan for Stratfield Mortimer was adopted on 22 June 2017
- A Neighbourhood Area for the parish of Cold Ash was designated by the Council on 19 March 2018

Monitoring the Key Housing Elements of the Local Plan 2017/18

This section of the AMR examines the success of Local Plan policies in meeting objectives and targets. Contextual indicators describing the wider social, environmental and economic background are presented, together with output indicators, which measure the implementation of planning policies for housing.

This report covers the period of 12 months from the end of the last Annual Monitoring Report i.e. 1 April 2017 to 31 March 2018.

Executive Summary

Housing Delivery – There were 526 net completions of dwelling units in the year. The delivery of housing at Newbury Racecourse strategic site is well underway and delivery is expected to increase over the next few years. Permissions were granted for over 1,000 net dwellings on new sites, together with over 170 identified through the prior approval process. The inclusion of allocations in the Housing Site Allocations DPD helps to demonstrate that there is a five year supply of housing land.

88% of residential completions were on previously developed land and the high percentage of outstanding commitments on previously developed land indicates that the level of development on brownfield sites is likely to remain high for the next few years. Development on greenfield land will increase in this second half of the plan period as local plan greenfield allocations begin to deliver housing.

Introduction 1

Background

1.1 Under the <u>Planning and Compulsory Purchase Act 2004</u> (as amended by Part 6 Section 113 of the <u>Localism</u> <u>Act</u> 2011) the Council is required to publish a regular monitoring report which monitors and reviews the progress made with the Local Plan and the extent to which its planning policies are being successfully implemented. Part 8 of the <u>Town and Country Planning (Local Planning) (England) Regulations 2012</u> (as amended) sets out the requirements for the content of these 'authorities' monitoring reports.

1.2 The Council produces its monitoring report on an annual basis. The Annual Monitoring Report (AMR) monitors the remaining policies of the West Berkshire District Local Plan 1991 - 2006 (Saved Policies 2007 as amended in July 2012 and May 2017) as well as the policies in the West Berkshire Core Strategy, which was adopted in July 2012 and the Housing Site Allocations DPD which was adopted in May 2017.

1.3 This report presents planning data for the period of 12 months from the end of the last Annual Monitoring Report (AMR), i.e. 1 April 2017 to 31 March 2018. It also updates on Local Plan progress and the Duty to Cooperate to March 2018. It builds on the format of previous years but is being published in separate sections. This section of the report covers monitoring of the housing policies within the Local Plan.

Planning Context

1.4 The National Planning Policy Framework (NPPF) was published in March 2012 and has subsequently been updated in July 2018 and in February 2019. The NPPF sets out the Government's planning policies for England and how these are expected to be applied. It provides a framework within which local people and their councils can produce their own distinctive local and neighbourhood plans, which reflect the needs and priorities of their communities. The NPPF sets out that the Development Plan is the starting place for decision making.

1.5 The Local Plan for West Berkshire comprises the West Berkshire Core Strategy, adopted in July 2012; the Housing Site Allocations Development Plan Document (HSADPD), adopted in May 2017 and the Saved Policies of the West Berkshire District Local Plan (WBDLP) 1991-2006. The Local Plan forms an essential part of the Development Plan for West Berkshire and sits alongside the Replacement Minerals Local Plan for Berkshire (RMLP) incorporating alterations adopted December 1997 and May 2001; the Waste Local Plan for Berkshire (WLP) adopted December 1998; the Stratfield Mortimer Neighbourhood Development Plan which was adopted in June 2017 and South East Plan Natural Resource Management Policy 6 which deals with the Thames Basin Heaths Special Protection Area, to form the current Development Plan for West Berkshire.

1.6 Together these documents set out a vision and a framework for the future development of the District up to 2026, addressing needs and opportunities in relation to housing, the economy, community facilities and infrastructure - as well as a basis for safeguarding the environment, adapting to climate change and securing good design. The Plan is also a critical tool in guiding decisions about individual development proposals, as it is the starting-point for considering whether applications can be approved. It is important that the Council has an up to date plan in place to positively guide development decisions.

Key Characteristics of West Berkshire

1.7 West Berkshire is an administrative area of 704 square kilometres containing extensive rural areas. There are two main urban areas, the towns of Newbury and Thatcham and the urban areas of Tilehurst, Purley-on-Thames and Calcot to the west of Reading. Rural West Berkshire is a large and diverse area which contains a number of larger towns and villages, including Hungerford, Lambourn and Kintbury in the west and Pangbourne, Theale, Burghfield Common and Mortimer to the east. There are a large number of smaller village communities throughout the area.

1.8 The District occupies a strategic position where the east-west M4 corridor intersects the north-south route of the A34. There are mainline railway services to London and good road connections to nearby larger centres such as Reading, Oxford, Swindon and Basingstoke. These factors, combined with the high quality urban and rural environment within the District, have contributed to a thriving economy, making the area a popular place to live and work.

1.9 The general high standard of living in the District is reflected in many social and economic indicators. Levels of economic activity are higher than the national average. People in West Berkshire enjoy better health and lower crime rates than the national average. Levels of educational attainment are high. The high level of affluence in the area is however tempered by pockets of deprivation and exclusion in both urban and rural areas.

1 Introduction

1.10 Employment provision is diverse. West Berkshire has a strong industrial base, characterised by new technology industries with a strong service sector and several manufacturing and distribution firms. The areas that have the highest concentrations of employment are Newbury Town Centre and the industrial areas and business parks in the east of Newbury, the business parks at Theale, Colthrop industrial area east of Thatcham and the Atomic Weapons Establishments at Aldermaston and Burghfield.

1.11 House prices in West Berkshire are high and the provision of affordable housing to meet local needs, particularly for young people and key workers, is one of the Council's priorities.

1.12 74% of the District is part of the North Wessex Downs AONB which is characterised by the quality of its chalk landscape which ranges from remote open downland, dramatic skyline escarpments, contrasting wooded downland, and the small scale intimate settled river valleys of the Lambourn and Pang. Outside the AONB, the River Kennet, from Newbury to Reading, lies within a distinctive broad corridor of an open lowland landscape characterised by a variety of wetland habitats including wet meadow, reed bed, and flooded gravel workings. Further south there are small areas of remnant heath.

1.13 There are many important areas of biodiversity and geodiversity, including 3 internationally designated Special Areas of Conservation (SACs), 51 nationally important Sites of Special Scientific Interest (SSSI), 3 Local Nature Reserves and about 500 Local Wildlife Sites and Local Geological Sites. There are also a large number of significant heritage assets, including nearly 1900 listed buildings, 52 Conservation Areas, 12 Historic Parks and Gardens, approximately 90 Scheduled Ancient Monuments and 1 Registered Battlefield.

Duty to Cooperate

1.14 The Council has a Duty to Cooperate when preparing all DPDs. This Duty was introduced in the Localism Act of 2011 and requires us to work with neighbouring authorities and other prescribed bodies (Set out in Part 2 (4(1)) of the Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended) in preparing DPDs in order to address strategic issues relevant to our area. It requires that we engage constructively, actively and on an ongoing basis to develop strategic policies; and requires us to consider joint approaches to plan making. At the heart of the Duty is effective partnership working to achieve outcomes. Work on satisfying the Duty takes place on an ongoing basis. Further details are set out in Appendix B.

Introduction 1

Monitoring Local Plan Policies

1.15 Monitoring is an essential part of the continuous planning process. Monitoring enables the examination of trends and comparison against existing targets and policies, indicating where a review of these policies may be needed. The Core Strategy sets out the indicators that will be used to monitor its policies.

1.16 Monitoring follows an objectives- policies - targets - indicators approach. Within this AMR the Core Strategy objectives and policies and saved Local Plan policies are presented. Targets, whether local or national, are given where possible along with the indicator used to evaluate the policy effectiveness. Actions required, whether in terms of additional monitoring requirements or review of policies, are outlined, together with the significant sustainability effects of the policies.

2 Local Development Scheme Implementation

The Local Development Scheme (LDS)

2.1 The Council's first LDS was approved by Government in April 2005. Further updates were then published in April 2010, May 2012, September 2013, May 2014, March 2015 and October 2015. The current LDS (published January 2018) contains updates to reflect changes in circumstances since October 2015, namely the re-evaluation of the previously approved timetable following an extended examination of the HSA DPD and a lack of available resources due to subsequent staff shortages.

2.2 The LDS shows that the Council is intending to produce the following DPD between 2017 and 2020:

• West Berkshire Local Plan Review to 2036

	Formal Stages of Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended)				
	Reg 18 Reg 19 Reg 22			Reg 24	Reg 26
	Public participation	Publication of Proposed Submission documents	Submission to Secretary of State	Examination	Adoption
West Berkshire Local Plan Review to 2036	December 2017 to November 2019	September 2019	December 2019	April 2020	November 2020

Та	ble	2.1	

2.3 As part of the AMR the Council assesses whether any changes to this timetable may be needed, whether the results of monitoring suggest attention to particular policy areas are required, or whether new or emerging issues may necessitate a review of the LDS.

Statement of Community Involvement (SCI)

2.4 The requirement to prepare an SCI was introduced in the Planning and Compulsory Purchase Act 2004 and we adopted our first SCI in July 2006. A revised SCI was adopted by the Council on 18 September 2014. Subsequently a minor factual update was made to para 2.16 of the SCI and so the SCI was updated in January 2015 to reflect this small change.

2.5 The SCI is kept under regular review (through our Annual Monitoring Reports and Minerals and Waste Annual Monitoring Reports) and will be changed when necessary to correct factual changes not material to its content.

West Berkshire Core Strategy DPD

2.6 The West Berkshire Core Strategy DPD (the Core Strategy) was adopted by the Council on 16 July 2012, meeting the timetable in the 2012 LDS, which anticipated adoption in September 2012.

Housing Site Allocations and Delivery DPD (HSA DPD)

2.7 The HSA DPD was adopted by the Council on 9 May 2017. The programme slipped slightly from that set out in the October 2015 LDS as a result of the additional work and consultation requested by the Inspector.

Local Development Scheme Implementation 2

West Berkshire Local Plan Review to 2036

2.8 The purpose of the Local Plan Review will be to assess the future levels of need for new homes (including market, affordable and specialist housing and Gypsy and Traveller accommodation) and employment land and other land uses up to 2036 and to provide an appropriate basis for housing, employment land and infrastructure provision over that period.

2.9 The Local Plan Review has to be accompanied by a Sustainability Appraisal (SA) under the Planning and Compulsory Purchase Act 2004, and must also be prepared in accordance with the requirements of the Strategic Environmental Assessment (SEA) Directive. As part of this process the Council issued the draft scoping report to the three statutory consultation bodies (Natural England, Historic England and the Environment Agency) for consultation in December 2017.

2.10 A Regulation 18 consultation on the scope of the Local Plan Review was carried out in February / March 2018 and a further Regulation 18 consultation took place in November/December 2018.

Supplementary Planning Documents

- Market Street Planning and Design Brief SPD was adopted in June 2005
- Quality Design West Berkshire SPD was adopted in June 2006
- *Pirbright Institute, Compton SPD* was adopted in September 2013
- **Sandleford Park, Newbury SPD** was originally adopted on 19 September 2013. The SPD was amended to reflect the need for a single planning application for the site and was adopted by the Council on 3 March 2015.
- Planning Obligations SPD was adopted on 11 December 2014. It came into effect, alongside the Community Infrastructure Levy on 1 April 2015, and replaced the 'Delivering Investment from Sustainable Development' SPD which was adopted in June 2013.

Neighbourhood Development Plans

2.11 Following a positive referendum result on the Stratfield Mortimer Neighbourhood Development Plan (NDP) on 22 June 2017, West Berkshire Council adopted the Stratfield Mortimer NDP as part of the development plan. The NDP covers the whole of the parish of Stratfield Mortimer.

2.12 A Neighbourhood Area for the parish of Tilehurst was designated by the Council on 29 May 2015 and we are continuing to work with the parish council to produce the Neighbourhood Development Plan.

2.13 A Neighbourhood Area for the parish of Compton was designated by the Council on 11 January 2017 and we are continuing to work with the parish council to produce the Neighbourhood Development Plan.

2.14 A Neighbourhood Area for the parish of Burghfield was designated by the Council on 1 March 2017 and we are continuing to work with the parish council to produce the Neighbourhood Development Plan.

2.15 A Neighbourhood Area for the parish of Cold Ash was designated by the Council on 19 March 2018 and we are continuing to work with the parish council to produce the Neighbourhood Development Plan.

Housing

Context

3.1 The 2011 Census recorded a population of 153,822 for West Berkshire, an increase of 6.5% over the period 2001 - 2011. Average household size in 2011 was 2.42 compared to 2.36 for England and Wales. Data on population and household structure is presented in Appendix A.

3.2 The latest 2016-based population projection prepared by the Office for National Statistics (ONS) projects a population of 164,840 by 2026. It shows the potential changing age structure of the population if current trends continue, with the percentage of people over 65 in West Berkshire increasing from 18.0% in 2016 to 21.9% by 2026. The latest 2016-based household projections prepared by ONS project an increase in households over the plan period from 2006 to 2026 of 10,160, an average of 508 additional households per annum.

3.3 Data on accommodation types and tenure is also presented in Appendix A. At 2011, 14.5% of households were accommodated in flats or maisonettes compared with an average of 21.6% for England and Wales. Owner occupation in West Berkshire is higher than the national average with 70% of households in owner occupation compared with 63.5% for England and Wales and 14% of households renting from the local authority or housing association, compared to 18% nationally.

3.4 House prices in West Berkshire are significantly higher than for England and Wales and slightly higher than for the South East as a whole. ONS statistics show the average house price in West Berkshire for the quarter ended March 2018 was £347,042 compared to £240,437 for England⁽¹⁾. Table A.7 in Appendix A shows the average price for different property types and highlights that affordability remains a critical issue.

3.5 The six Berkshire authorities together with the Thames Valley Berkshire Local Enterprise Partnership (LEP) commissioned a Strategic Housing Market Assessment (SHMA) at the beginning of 2015. The primary purpose of the SHMA is to provide an assessment of the future needs for both market and affordable housing, together with the housing needs of different groups within the population. The conclusions on the objectively assessed need (OAN) were made public in October 2015 and the report was published in February 2016. The conclusion of the SHMA for West Berkshire was that there is an OAN of 665 dwellings per annum averaged over the period 2013-2036. In March 2018 the OAN was reviewed through a sensitivity assessment, to update the evidence on housing need in the Western Berkshire Housing Market Area. This assessment concluded that the OAN for West Berkshire was 600 dwellings per annum.

3.6 The approach to assessing housing need has, however, been simplified with the publication of the 2018 NPPF and the introduction of a standard method for assessing local housing need (LHN). The standard method is based on household projections with an adjustment to reflect affordability in the local area. This standard method has replaced the assessment of OAN through a SHMA.

Table 3.1 Housing Objectives

Core Strategy Objectives:

To deliver at least 10,500 homes across West Berkshire between 2006 - 2026. These homes will be delivered in an effective and timely manner, will maximise the use of suitable brownfield land and access to facilities and services and will be developed at densities which make the most efficient use of land whilst responding to the existing built environment.

To secure provision of affordable and market housing to meet local needs in both urban and rural areas of the District. To provide homes in a way that promotes sustainable communities, providing a mix of house sizes, types and tenures to meet identified needs, and respond to the changing demographic profile of the District.

Table 3.2 Housing Indicators and Policies

Indicators	West Berkshire District Local Plan Saved Policies (superseded by HSA DPD in May 2017)	West Berkshire Core Strategy Policies	West Berkshire Housing Site Allocations DPD
Plan Period and Housing Targets		ADPP1: Spatial Strategy CS1: Delivering new homes and retaining the housing stock

Housing Delivery

Plan Period and Housing Targets

Table 3.3 Plan Period and Housing Targets

Start of Plan Period	End of Plan Period	Total housing required	Source of Plan Target
2006	2026	At least 10,500	West Berkshire Core Strategy

3.7 The Examination into the West Berkshire Core Strategy covered the issue of the overall housing requirement. The Inspector concluded that the 2007 Berkshire Housing Market Assessment did not provide a clear understanding of housing needs and demands in the area as required in the NPPF. He concluded that a new Housing Market Assessment was required which complies with NPPF paragraph 159, a complex task which requires co-operative working between several authorities. The Inspector did consider though that the Core Strategy represents a positive approach to planning, that there were exceptional circumstances relating to its timing, and that the government's planning aims were best achieved by the adoption of the Core Strategy with a requirement to review the Housing Market Assessment within three years, in order to determine a justified long term basis for planning in West Berkshire.

3.8 The six Berkshire unitary authorities, together with the Thames Valley Berkshire Local Enterprise Partnership (LEP), commissioned consultants GL Hearn to prepare a Strategic Housing Market Assessment (SHMA) for the relevant housing market areas. The purpose of the SHMA is to develop a robust understanding of housing market dynamics and to provide an assessment of the future needs for both market and affordable housing, together with the housing needs of different groups within the population. It identifies the "objectively assessed need" (OAN) for housing and provides the evidence for establishing a new housing requirement for the new Local Plan.

3.9 The SHMA conclusions were made public at a stakeholder event in October 2015 and the final report was published in February 2016. The conclusions show West Berkshire to be located within a housing market area (HMA) that also includes Reading, Wokingham and Bracknell Forest.

3.10 The OAN for the District was derived in stages. The household projections published by the Department of Communities and Local Government (DCLG) provided the starting point; with adjustments to take account of more recent population estimates and an adjustment to meet an assumed increase in net migration from London, the demographic - led need was assessed as 551 dwellings per annum over the period 2013 to 2036. Further upward adjustments were made to meet economic-led need and to help improve affordability. The overall OAN was assessed as 665 dwellings per annum over the period 2013 - 2036.

3.11 Since the preparation of the SHMA new 2014-based, and subsequently 2016-based, official population and household projections have been released. There is also a range of other more recent data available, including house price and affordability data and more recent economic forecasts.

3.12 Against this context the authorities in the Western Berkshire HMA commissioned GL Hearn to carry out a sensitivity assessment of the OAN to update the evidence base.

3.13 The conclusions across the HMA are very similar to those in the 2016 SHMA but there is some variation in the figures for the individual authorities. The housing need for West Berkshire based on the more recent evidence is 600 dwellings per annum. The reduction is mainly due to the different starting point of the 2014-based household projections and more recent, lower projections of economic growth.

3.14 The SHMA assessment of need itself does not set a new housing target. That will be set through the new Local Plan following additional work on constraints and opportunities for development, carried out in cooperation with the other authorities within the HMA. There will also be a process of consultation and ultimately any new housing target will be tested through the examination of the new Local Plan.

3.15 The government has since introduced a new methodology for establishing local housing need which came into effect in 2018. This is a simpler means of establishing the local housing need based on household projections with an uplift to reflect affordability of housing in the local area. The figure will be subject to regular change as affordability ratios and projections change. The application of the proposed formula resulted in an assessed housing need for West Berkshire in September 2018, following publication of the 2016-based household projections, of 631 dwellings per annum.

3.16 In October 2018 the government published proposals to amend the standard methodology so that the 2014-based household projections form the starting point for consideration of the LHN. The aim is to achieve the national objective of delivery of 300,000 homes a year by the mid 2020's. This amendment was confirmed in February 2019 in the revised Planing Practice Guidance (PPG).

Commentary

3.17 Levels of housing delivery were high in the early part of the plan period. The net completions for the period from 2009/10 to 2011/12 showed a decline, largely as a result of the economic downturn. Delivery has been recovering since 2012/13. In 2017/18 there were 526 net completions.

3.18 Data for new housing permissions, starts, and numbers under construction can be found in Table A.8. At March 2018 there were 586 dwellings under construction with 419 dwelling starts during 2017/18. The number of dwellings permitted on new sites in 2017/18, at 1054 was the highest since 2010/11, when the strategic site at Newbury Racecourse was permitted. An additional 171 units were permitted under the prior approval process for permitted development.

3.19 Information on completions by site size can be found in Table A.9 and shows that over the period April 2000 to March 2018 completions on sites of less than 10 units, which are difficult to identify in advance and will almost all be classed as windfall, have averaged 144 units a year (26% of all completions). Over the plan period from April 2006, they averaged 152 units a year, 30% of all completions.

3.20 Of the requirement for at least 10,500 dwellings in the Core Strategy period 2006 - 2026, 6,023 additional units were completed in the first 12 years to March 2018. Delivery has therefore fallen below the cumulative requirement with a shortfall of 277 net units. The vast majority of allocated sites in both the Core Strategy and the HSA DPD are anticipated to deliver housing in the second half of the plan period. Table 3.7 shows the housing land position at March 2018 and identifies the contribution that the strategic sites in the Core Strategy and the allocated sites in the Housing Site Allocations DPD will make to housing supply. Sandleford Park was previously assumed to deliver 1,000 units in the plan period, as required in Policy CS2, but with the refusal of planning permissions in November/December 2017 the timing of delivery is more uncertain and a contribution of 200 units has been assumed by the end of the plan period.

Core Strategy Requirement 2006 - 2026	At least 10,500
Components of Housing Land Supply	
Dwellings completed April 2006 - March 2018	6,023
Dwellings with outstanding planning permission - Core Strategy allocation at Newbury Racecourse	783
Dwellings with outstanding planning permission - HSA DPD allocations plus Stratfield Mortimer NDP	612
Dwellings with outstanding planning permission - non-allocated sites	2,417
Subtotal of dwellings completed and with planning permission at March 2018	9,835
Allocated strategic site at Sandleford Park	200
Allocations in HSA DPD without planning permission	1,070 - 1,125
Identified sites including permitted development identified through Prior Approval process	375
Small and medium site windfall allowance (number in 5 year supply to 2023)	413
Subtotal of dwellings without planning permission at March 2018	2,058-2118
Total	11,893 - 11,948

Table 3.7 Housing Land Supply at March 2018 - Net Dwellings

3.21 The site-based trajectory compares past performance on housing supply to future anticipated supply. Current commitments at March 2018 that have been assessed as deliverable or developable, allocated sites and identified large and medium sites (include site allocations in the Housing Site Allocations DPD) have all been phased over the

current plan period. The resultant graphs illustrate the projected level of housing completions showing how projected delivery meets both the Core Strategy requirement and the Local Housing Need, calculated in December 2018 as 631 dwellings per annum. More detail is contained in Table A.11.

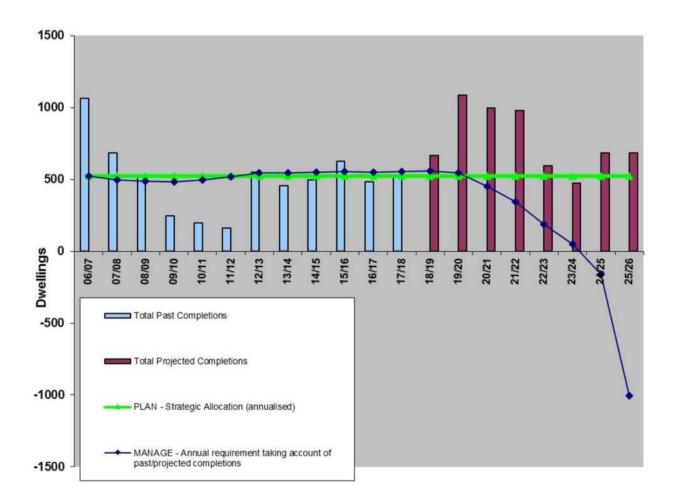

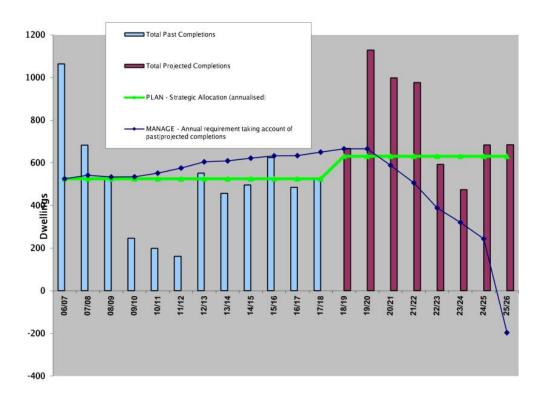

Figure 3.1 Housing Trajectory at December 2018 - Monitoring against Core Strategy Requirement

3.22 The trajectories show that both the Core Strategy and the LHN target is met over the plan period. The Council are now preparing a Local Plan Review, working with our neighbouring authorities in the housing market area on how to best meet the identified housing need over the period to 2036. The Local Plan Review will look again at the proposed housing distribution and allocate new sites which will deliver in the later stages of the current plan period and beyond.

Policy Effectiveness:

Local Plan policies have been largely successful in delivering the housing requirement in the Core Strategy. The current shortfall is partly a result of the national economic downturn but indicators are that completions will increase significantly over the next few years. Delivery of housing on the Newbury Racecourse strategic site is well underway and the allocation of Sandleford Park in the Core Strategy and the adoption of an SPD are expected to lead to completions on this site later in the plan period. Adoption of the Housing Site Allocations DPD has already led to a number of planning permissions on newly allocated sites and will boost housing supply in the short and medium term.

Actions Required:

Review of the Local Plan which will seek to ensure that housing need is met in the housing market area. It will plan for additional growth in the latter part of this plan period and in the period up to 2036.

Preparation of the Housing and Economic Land Availability Assessment to provide robust evidence of sites which will be developable over the plan period.

Significant Sustainability Effects

The level of commitments is such that Core Strategy targets for West Berkshire should be met without additional development on unallocated greenfield land being required.

Completions on Allocated Sites

3.23 Progress on allocated sites is set out in Table 3.8 below. 2013/14 saw the first completions on the strategic site at Newbury Racecourse, with the first phase of 421 dwellings completed by March 2016. Work is well underway on both the second and third phase of the development.

3.24 Progress on Sandleford Park has been slower than anticipated in the Core Strategy. A supplementary planning document for Sandleford Park, which provides guidelines for a planning application, was adopted in September 2013 and updated in March 2015 to ensure that the development and the associated infrastructure is delivered in a comprehensive manner. Applications were refused in November and December 2017, as significant objections, particularly related to highways, had not been resolved. New applications were submitted in April 2019 and are awaiting a decision.

3.25 The Housing Site Allocations DPD was adopted in May 2017. Of the sites allocated in the plan 10 have been granted permission by March 2018 with a total of 612 dwellings permitted. Several applications are pending determination.

Completions on Sites where Change of use to Residential Identified through the Prior Approval Process

3.26 In May 2013 changes were made at a national level to permitted development rights which permits the change of use from an office (B1a) to residential use (C3) via a prior approval process rather than a planning application. The prior approval process covers flooding, highways and transport issues and contamination. This change was initially proposed to be a temporary change with the residential use started by May 2016, but has now become a permanent change. A number of these schemes for change of use have been completed with 391 units either under construction or not yet started at March 2018. The majority of sites are in Newbury.

	New Sites identi	fied	Completions		Outstanding
	Sites	No. Units	Sites	No. units	Units
2013/14	12	81	1	5

2017/18	8	171	6	35	391

Table 3.9	Residential Si	es identified throu	ugh Prior Approval Process
-----------	-----------------------	---------------------	----------------------------

Five Year Housing Land Supply

Five Year Supply of Deliverable Housing Sites

3.27 The NPPF states that local planning authorities must identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement. The five year housing land supply is set out in an annex to this monitoring report and contains the calculations of the requirement plus the schedules of housing sites which make up the supply ⁽²⁾.

3.28 The five year housing requirement should be based on the requirement set out in adopted strategic policies, or against the local housing need (LHN) where the strategic policies are more than 5 years out of date (unless reviewed and found not to need updating). The supply of specific deliverable sites should also include a buffer of:

- 5% to ensure choice and competition in the market for land; or
- 10% if the local planning authority wiches to demonstrate a 5 year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or
- 20% where there has been significant under delivery of housing over the previous three years.

3.29 The Core Strategy DPD was adopted in 2012, and the housing requirement will be reviewed through the Local Plan Review process. The housing requirement for the five year period has therefore been based on the LHN as calculated using the standard method, although, for comparison, also calculated to show the Core Strategy requirement for the period.

3.30 In respect of the calculation of the LHN, it should be noted that in October 2018 the Government published for consultation proposals to amend the standard methodology so that the 2014-based household projections form the starting point for the LHN, and not the 2016-based household projections. As a result, both the 2016-based and 2014-based figures have been used in the calculations which are presented in the five year supply statment and the summary tables below.

3.31 A buffer of 5% has been applied as there has not been a significant under supply of housing over the previous three years.

3.32 The housing requirement is set out in the Table below for the five year period April 2018 to March 2023 and also for the period to March 2024.

Table 3.10	Calculation of t	the Housing	Requirement
------------	------------------	-------------	-------------

	Core Straregy 525 dpa	LHN (2016 HHP) 631 dpa	LHN (2014 HHP) 551 dpa
Requirement 2018 - 2023	2,625	3,155	2,755
Shortfall	277	n/a	n/a
Requirement plus shortfall	2,902	3,155	2,902
5% buffer	145	158	138
Requirement plus buffer 2018 - 2023	3,047	3,313	2,893
Requirement 2023/24	525	631	551
Requirement plus buffer 2018 - 2024	3,572	3,944	3,444

3.33 The specific deliverable sites which make up the supply to March 2024 are summarised below in Table 3.11. Identified sites were assessed for deliverability according to the criteria in the NPPF. Small sites of less than 10 units are also included in the supply. The majority of the sites allocated in the Housing Site Allocations DPD are included in the five year supply. The objective of the DPD was to allocate sites which could boost supply in the short to medium term in a plan-led manner. Also included in the schedules are sites identified through the prior approval process which do not require planning permission for changes of use to residential, as well as communal accommodation. A windfall allowance has been included, as windfalls are expected to continue to provide a reliable source of supply.

3.34 At 31 March 2018, the Council can demonstrate a housing land supply in excess of five years when calculated against the LHN and Core Strategy. For the period April 2018 to March 2023 a supply of 4,364 units is demonstrated against the requirement for 3,313 to meet the LHN of 631 dpa. This represents a supply of 6.5 years. The calculations to meet the Core Strategy requirement and the LHN calculated using the 2014-based household projections are set out in Table 3.12

Deliverable Sites	18/19	19/20	20/21	21/22	22/23	23/24	Total April 2018 to March 2023	Total April 2018 to March 2024

	Net requirement to meet 631 dwellings per year (applying 2016-based household projections	Net requirement to meet 551 dwellings per year (applying 2014-based household projections	Net requirement to meet 525 dwellings per year (Core Strategy)
A. requirement including buffer and Core strategy shortfall	3,313	2,893	3,047
B. Total housing supply over 5 year period	4,354	4,364	4,364
C. total deliverable housing supply in years for April 2018 to March 2023 (B/A x 5)	6.5 years	7.5 years	7.1 years

Windfall Permissions and Completions

3.35 Windfalls were previously sites that unexpectedly became available. They were sites, not identified in the SHLAA or through a previous application, that have come forward through a planning application. The revised NPPF of July 2018 has changed the definition to 'sites not specifically identified in the development plan'. Windfall permissions since March 2008 and completions on these sites approved since March 2008 are shown in the table below. Future windfall data will need to reflect the revised definition. The windfall allowance included in the five year housing land supply has been reviewed to reflect this new definition and the calculations are set out in the five year housing land supply document published in December 2018.

Table 3.13 Windfall Permissions and Completions on sites permitted since March 2008

Windfall Development (Sites not identified in SHLAA or previous permission)	2008/09	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18
Units permitted on sites >10 units	0	30	20	0	14	0	56	25	12	60
Units permitted on sites <10 units	138	99	98	118	138	111	120	90	164	165
Units permitted on residential gardens	N/A	34	27	28	27	10	18	21	22	37
Windfall units completed	4	19	69	64	91	168	163	102	117	146
Windfall units under construction	21	56	91	69	157	137	88	76	153	164

Policy Effectiveness:

A five year land supply can be demonstrated. Completions are expected to increase over the next few years following a period of lower housing delivery due to the national economic downturn. Delivery of housing on the Newbury Racecourse strategic site commenced in 2012/13 with first occupations in 2013/14. The adoption of the Housing Site Allocations DPD has enabled the inclusion of a number of proposed allocations within the five year housing land supply.

Actions Required:

Preparation of the Local Plan Review which will make allocations to met the longer term housing needs of the District.

Significant Sustainability Effects

The level of commitments, allocated strategic sites and allocations in the Housing Site Allocations DPD is such that additional development on greenfield land outside settlement boundaries should not be required until allocations are made in the Local Plan Review. The adoption of the Housing Site Allocations DPD has enabled housing delivery to be boosted in a sustainable and plan-led manner.

Location of Development

Housing Development on Previously Developed Land

New and converted dwellings - on previously developed land

Target: Core Strategy target of 60% of development on previously developed land

2017/18	557	88
TOTAL	6805	85

Source: Planning Commitments for Housing at March 2018 and planning application information

Commentary

3.36 The percentage of housing completions on previously developed land has been consistently above the Core Strategy target of 60%. The indicator relates to gross completions, that is the percentage of new build on previously developed land plus conversion and change of use gains as a percentage of gross completions. Over the twelve year period April 2006 to March 2018, 85% of gross completions have been on previously developed land.

3.37 The definition of previously developed land changed in June 2010 when residential gardens in built up areas were defined as greenfield land. This revised definition has been used since that date.

Percentage of Outstanding Commitments on Previously Developed Land

Table 3.15 Outstanding Commitments on Previously Developed Land at March 2018

	Total Commitments	Commitments on PDL	% Commitments on PDL
Hard Commitments	3,812	2,139	56%
Sites identified through prior approval process	375	375	100%
Soft Commitments -strategic site at Sandleford Park with delivery extending beyond current plan period	up to 2,000	0	0%
Soft Commitments - allocations in Housing Site Allocations DPD	1,070	140	13%
Total	7,257	2,654	37%

Source: Planning Commitments for Housing at March 2018

Hard commitments are the number of dwellings on sites which have planning permission.

Soft commitments are the number of dwellings on sites either identified for housing in the Local Plan or in a DPD submitted to the Secretary of State, or on sites awaiting signing of legal agreements.

Commentary

3.38 Development on greenfield land is anticipated to be substantially higher in the second half of the plan period as the allocated site at Sandleford Park and the allocations in the Housing Site Allocations DPD begin to deliver housing. The major non-allocated greenfield sites are at Lakeside, Theale where 350 units were allowed at appeal in 2007 and a subsequent application for up to 325 units was allowed, land adjacent to Hilltop in North Newbury where up to 401 homes were allowed on appeal in March 2017, land at Junction of Mill Lane, Bath Road, Calcot where permission was granted for 45 units and Firlands Farm, Burghfield Common where 90 units were allowed on appeal in July 2015.

3.39 The change in the definition of previously developed land, in June 2010, to exclude residential gardens is unlikely to have a significant impact on the level of previously developed land coming forward, but this will continue to be monitored.

Greenfield Residential Garden sites	2010/11	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18
Permitted	16	28	27	10	19	21	22	22
Completed	N/A	55	7	21	25	1	45	25

Table 3.16 Permissions and Completions on Greenfield Residential Garden Sites (Gross units)

Policy Effectiveness: The target of 60% of development on previously developed land has been exceeded in the first half of the plan period. Levels of development on greenfield sites will increase in the second half of the plan period as greenfield allocations begin to deliver new housing.

Actions Required: Development Plan Documents to continue the emphasis on priority for development on previously developed land.

Significant Sustainability Effects: The emphasis on re-use of previously developed land will reduce the pressure for development on greenfield sites. The potential change in character of existing settlements and increased pressure on infrastructure are potential negative effects to be taken into consideration.

Housing Development Within Settlement Boundaries

Percentage of completed residential development inside settlement boundaries

Note: Completions and commitments on sites adjacent to settlements have been included in the figures for the settlement rather than the remainder of the rural area

Commentary

3.40 Development Plan policies seek to protect the undeveloped character of the countryside and to limit new dwellings outside defined settlement boundaries.

3.41 The Core Strategy sets out a District Settlement Hierarchy. This identifies the most sustainable locations for growth and identifies settlements which contain a range of facilities which can provide services to a wider area. Table 3.18 shows the distribution of completions at the different levels of the hierarchy: the majority of homes completed in 2017/18 were in the main urban areas of the District.

Policy Effectiveness: Limited residential development outside settlement boundaries indicates that policies are proving effective.

Actions Required: To continue to monitor location of developments.

Significant Sustainability Effects: Locating development within existing settlements provides better access to services, public transport and employment opportunities and protects the character of the countryside. There are, however, potential impacts on the character of settlements and on existing services.

Completions in Core Strategy Spatial Areas

Spatial Area	Completions 2017/18	Completions 2006 - 2018	Hard Commitments (including prior approval sites) at March 2018

Thatcham area	72	870	322
Total Newbury/Thatcham	387	3,569	3,098

Commentary

3.42 The Core Strategy contains area delivery plan policies for four geographical areas of the District, setting out how growth will be delivered over the plan period. Table 3.19 shows the completions and outstanding commitments in each of these areas. This is broken down for the Newbury and Thatcham areas in Table 3.20. The Newbury and Thatcham areas are broader than the towns themselves and include adjacent parishes or parts of parishes. The majority of Cold Ash parish is included within the Thatcham area

Commentary

3.43 Core Strategy Policy CS8 sets out the land use planning consultation zones for development within the vicinity of the nuclear installations at AWE Aldermaston and Burghfield. Proposals for development in these zones will be considered in consultation with the Office for Nuclear Regulation.

Housing Mix

Gross and Net Affordable Housing Completions

Target: The Council's Housing Strategy 2010 - 15 includes a target to facilitate the provision of 920 new social rented and intermediate tenure homes over the five year period, equivalent to 35% of the overall Core Strategy housing requirement.

Table 3.22 Affordable Housing Completions

Year	Gross Affordable Housing Completions	Net Affordable Housing Completions
2004/05	248	248
2005/06	142	142
2006/07	289	259
2007/08	135	135
2008/09	231	209
2009/10	75	66
2010/11	31	-8
2011/12	7	-26
2012/13	182	182
2013/14	146	146
2014/15	70	-15
2015/16	158	158
2016/17	96	78
2017/18	125	125

Commentary

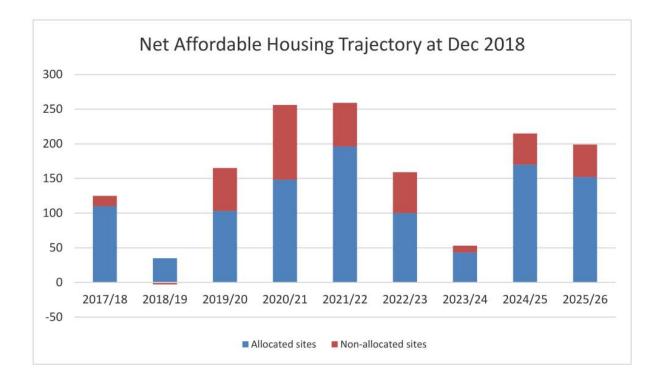

3.44 Policy CS6 of the Core Strategy seeks to ensure that a proportion of the housing allocation will be for affordable housing. The Council seeks to achieve affordable housing on schemes proposing 5 or more dwellings, with 40% provision sought on greenfield sites of 15 or more dwellings (or 0.5 ha or more). In exceptional cases a financial contribution is acceptable in lieu of on site affordable housing.

3.45 Affordable housing is measured in gross terms i.e the number of dwellings completed, through new build, acquisitions and conversions. It does not take account of losses through demolitions before a site is redeveloped. Net completions are also shown in Table 3.22. Details of affordable housing sites completed in 2017/18 are presented in Table A.13.

3.46 At March 2018 there were approximately 862 outstanding commitments for affordable housing, including over 200 at Newbury Racecourse. The HSA DPD sites will deliver approximately 653 affordable units, 240 of which are already permitted, and additional units are expected at Sandleford Park towards the end of the plan period. The

trajectory below shows the potential delivery of affordable units on the identified deliverable and developable sites and illustrates the contribution that the allocations in the Core Strategy and HSA DPD will make to the delivery of affordable housing.

Applications including contribution to affordable housing

Target: Core Strategy target of 100% of applications where policy applies making contribution to affordable housing

Table 3.23 New Permissions above affordable housin	g threshold (2012/13 to 2017/18)
--	----------------------------------

Year	Permissions units	Permissions for 15 or more inits		for 10-14 units	Permissions for 5 - 9 units	
	No. of applications	No. with affordable housing contribution	No. of applications	No. with affordable housing contribution	No. of applications	No. with affordable housing contribution
2012/13	5	5	0	0	3	1
2013/14	3	3	3	3	3	2
2014/15	10	9	4	4	2	1
2015/16	5	5	1	1	1	1
2016/17	10	9	1	1	6	2
2017/18	11	10	2	2	9	4

Commentary

3.47 Core Strategy Policy CS6 seeks affordable housing from developments of 5 or more dwellings and replaced the previous Local Plan policy which had a threshold for contributions of 15 dwellings. In 2017/18 there were 22 applications permitted on new sites which were above the threshold. Of the 11 sites of 15 or more dwellings, one was permitted without an affordable housing contribution and one permitted with a reduced level of affordable housing, both for viability reasons. Of the small sites of 5 -10 dwellings permitted, five did not include a contribution towards affordable housing, with two delivering off-site contributions rather than on-site. The permissions granted in 2017/18 should deliver 259 affordable housing units.

Policy Effectiveness: Whilst previous Local Plan policies and SPG 4/04 have been effective in delivering affordable housing, a significant number of schemes fell below the threshold and therefore did not contribute to affordable housing. The Core Strategy policy which has reduced the threshold for affordable housing provision to 5 units should increase provision in the longer term. A number of smaller schemes are now coming forward with affordable housing contributions whether on site or in the form of a financial contribution.

Actions Required: Ensure that the Local Plan continues to set a framework for the future provision of affordable housing, based upon the evidence provided by the Strategic Housing Market Assessment and the Economic Viability Assessment.

Significant Sustainability Effects: Provision of affordable housing has helped towards meeting local housing needs, reducing social exclusion and creating mixed communities.

Self and Custom Build Housing

3.48 Self and custom housbuilding is a key element of the governments' agenda to increase supply of new housing and a raft of legislation has been introduced to support this initiative:

- The Self-build and Custom Housebuilding Act (March 2015)
- The Self-build and Custom Housebuilding (Register) Regulations 2016 (Commenced 1st April 2016)
- Housing and Planning Act 2016

3.49 Local Planning Authorities now have a duty to keep a register of individuals and associations who have expressed an interest in acquiring serviced plots for self and custom build. In addition LPAs must also hold a webpage dedicated to self-build and custom housbuilding setting out what the authority is doing to promote opportunities in their area. West Berkshires' webpage can be found at http://info.westberks.gov.uk/index.aspx?articleid=32588

Number of individuals and associations on the self-build register

Table 3.24 Applications to be included on Self-build Register

Base period	Number on the individuals register	Number on the associations register
1 (1 April 2016 to 30 October 2016)	55	0
2 (31 October 2016 to 30 October 2017)	104	2
3 (31 October 2017 to 30 October 2018	55	2

Commentary

3.50 A total of 49 self-build Community Infrastructure Levy (CIL) exemptions were granted on approved planning applications for dwellings between 1 April 2016 and 30 October 2017.

Table 3.25 Self-build exemptions granted planning permission

Base Period	Number of self-build exemptions granted planning permission
1 (1 April 2016 to 30 October 2016)	28
2 (31 October 2016 to 30 October 2017)	21
3 (31 October 2017 to 30 October 2018	

Accommodation for Older People in Residential Institutions

Completions of accommodation for elderly in residential institutions

Target: The Berkshire SHMA identifies the assessed need for residential care housing which will form the basis of a target for the provision of accommodation for the elderly in residential institutions.

Table 3.26 Completions of rooms in care homes for the elderly

Parish	2013/14	2014/15	2015/16	2016/17	2017/18	Total 2013 - 2018
Newbury	0	80	0	60	0	140
Thatcham	11	0	0	0	0	11

Commentary

3.51 The PPG (ID 3-037-20150320) is clear that local planning authorities should count housing provided for older people, including residential institutions in Use Class C2, against their housing requirement. The housing requirement in the Core Strategy did not include an assessment of the requirement for residential institutions, but the Berkshire SHMA includes an assessment of the potential need for residential care housing. Any future housing target may therefore include an allowance for C2 uses.

Provision for Gypsies, Travellers and Travelling Showpeople

Net additional pitches (Gypsies, Travellers and Travelling Showpeople)

Table 3.27 Net Additional Pitches for Gypsies and Travellers since 2010/11

	Permanent	Transit	Total
2010/11	1*	0	1
2011/12	0	0	0
2012/13	0	0	0
2013/14	1	0	1

2015/16	0	0	0
2016/17	0	0	0
2017/18	0	0	0

* Permission for this pitch lapsed in 2013/14

Commentary

3.52 Legislation and Government guidance on Gypsies, Travellers and Travelling Showpeople is extensive, including the Planning Policy for Traveller Sites (August 2015). The Council's Joint Police and Unitary Authority Gypsy and Traveller Protocol (2014) addresses the national issue of unauthorised encampments which are likely to remain an issue while there are insufficient spaces to accommodate the Travelling community on authorised sites.

3.53 West Berkshire currently has one public site at Four Houses Corner in Mortimer, which is managed by the Council and is a permanent Gypsy and Traveller site with planning permission for 18 pitches. Refurbishment of the site is planned and as a result residents are being re-housed from the site. 7 pitches were vacated in 2017/18, and the remaining pitches are proposed to be vacated by March 2019. There is also a privately-owned site at Paices Hill in Aldermaston which has planning permission for 24 permanent pitches and 15 transit pitches. Planning permission was granted in March 2011 for a private one-pitch site at Padworth Farm in Aldermaston however this permission (10/02684/FULD) lapsed in 2013/14. In September 2013 planning permission was granted at appeal for a private one-pitch site on land adjacent to The Old Forge Farm in Beenham (12/01547/FULD).

3.54 In addition, West Berkshire has one private Travelling Showpeople yard in Enborne. A planning application for temporary permission for 22 caravans was submitted in June 2018. Permission was granted in December 2018.

3.55 The Council's Gypsy and Traveller Accommodation Assessment (GTAA; May 2015) which provides an assessment of need for Gypsy, Traveller and Travelling Showpeople accommodation in West Berkshire over the 15 year period to 2029. This work is available on the Council's website and forms part of the evidence base for the Housing Site Allocations DPD. An updated GTAA is being prepared to cover the period 2018/19 to 2035/36.

3.56 The Housing Site Allocations (HSA) DPD was adopted in May 2017. Within the HSA DPD, sites for the travelling community are allocated in the short and medium term, for more permanent pitches and less transit pitches at Paices's Hill to satisfy the respective identified need set out within the GTAA (2015) and which provide a 5 year supply of deliverable sites. Changes to the definition of 'traveller' within the Planning Policy for Traveller Sites published in August 2015 post-dated the GTAA. Therefore, the Council will apply the revised definition and review the longer term provision of Gypsy and Traveller sites for the forthcoming Local Plan Review. The change does not affect the assessment of plots for Travelling Showpeople.

Policy Effectiveness: There were no planning permissions granted in 2017/2018 for Gypsy, Traveller and Travelling Showpeople accommodation. For the longer term, the provision of new sites will be identified through the plan-led process and will include a review of the provision following the changes in the Planning Policy for Traveller Sites. No indication that policies are not effective.

Actions Required: Apply the policies in the Housing Sites Allocation DPD. Identify new sites where necessary through the Local Plan Review to assist in meeting the identified need within a new GTAA.

Significant Sustainability Effects: Provision required to meet needs of all in the community and reduce social exclusion.

Sustainable Construction and Energy Efficiency

3.57 Core Strategy policy CS15 (Sustainable Construction and Energy Efficiency) seeks to achieve sustainable design and energy efficiency in new developments through the use of national sustainability standards for new homes (Code for Sustainable Homes) and non-residential buildings (BREAAM), in addition to carbon reductions that are based on stated Government aspirations but which may be subject to change.

3.58 Following the technical Housing Standards Review, the Government issued a written Ministerial Statement on 25 March 2015 withdrawing all national standards that applied to residential development. This had the impact of cancelling the Code for Sustainable Homes, with some of the issues that it covered being integrated into Building Regulations.

3.59 In light of this, the Council no longer require residential developments to comply with the Code for Sustainable Homes. However if planning conditions required Code for Sustainable Homes and were in place before 27 March 2015, then compliance remains.

3.60 The 2016 Housing and Planning Act has brought an end to the Government's aspiration to deliver zero-carbon homes through the planning process, relying instead on building regulations to deliver energy efficient buildings. The Government has also scrapped the requirement for non-domestic buildings to be zero carbon by 2019. The requirements in policy CS16 for zero carbon major residential and non-residential development therefore no longer apply but the 20% CO2 reduction remains.

3.61 In light of this, the Council no longer require residential developments to comply with the Code for Sustainable Homes. However if planning conditions required Code for Sustainable Homes and were in place before 27 March 2015, then compliance remains.

Population and Housing A

Contextual Indicators

This appendix contains some limited contextual Census information. The Berkshire SHMA, published in February 2016 contains detailed information on demographics and housing need relating to the District and the wider housing market area.

Age	West Be	erkshire	South	n East	Eng	land
	2001	2011	2001	2011	2001	2011
0 -4	5.9	6.5	5.7	6.2	5.8	6.3
5-14	13.0	12.3	12.1	11.6	12.0	11.4
15-19	6.9	6.3	6.5	6.3	6.6	6.3
20-44	40.2	31.8	33.8	32.7	35.1	34.3
45-64	26.7	27.8	25.3	26.1	24.6	25.4
65+	14.1	15.4	16.6	17.2	16.0	16.3

Table A.1 Population Structure 2001 and 2011: Percentage

Source 2001 and 2011 Census

The most marked change in the age structure is the reduction in the percentage of younger adults in West Berkshire. At 2011 only 10.3% of the population fell within the 20 - 29 age group compared with 13.7% in this age group nationally. This could be a reflection of high house prices and the high mobility of this age group.

The 2016-based population projection⁽³⁾ shows a population of 158,600 at 2016, projected to increase to 164,800 by 2026.

Table A.2 Recent Population Projections for West Berkshire

Projection	Projected Population in Thousands				
	2011	2016	2021	2026	
ONS 2016 -based SNPP		158.6	161.9	164.8	
ONS 2014-based SNPP		156.7	159.8	162.5	
ONS 2012-based SNPP		158.3	163.4	167.9	
ONS 2011-based (interim) SNPP	154.1	162.3	170.1		
GLA 2010-based (10,500 homes)	154.3	158.6	163.2	166.5	

Source: ONS website and GLA Berkshire Demographic Projections 2011

The sub-national population projections are trend based projections that do not take into account future policy changes or local development policies. Projections for Berkshire carried out for the unitary authorities by the GLA ⁽⁴⁾ taking account of anticipated housing growth over the period, project a population of 166,500 in West Berkshire in 2026.

A Population and Housing

Table A.3 Household Type 2001 and 2011 – Percentage

Household Type	West B	erkshire	South East		England&Wales	
	2001	2011	2001	2011	2001	2011
Pensioner living alone	11.6	10.9	14.4	12.7	14.4	12.4
One person non-pensioner	13.0	14.9	14.1	16.1	15.6	17.9
Other pensioner households	8.4	8.7	9.7	9.3	9.0	8.5
Couples with no children	22.2	21.4	19.3	19.0	17.7	17.6

Lone parent with dependent children	4.5	5.4	5.2	6.1	6.5	7.2
Lone parent with non-dependent children	2.5	2.8	2.7	3.1	3.1	3.5
Other with dependent children	1.9	1.9	1.9	2.3	2.2	2.6
Full-time students		0.0		0.5		0.6
Other		3.6		4.2		4.4

Source 2001 and 2011 Census

The Census data shows a lower percentage of people living alone than for the South East or England and Wales and a higher percentage of couples and families with children. The percentage of lone parents has increased from 2001 but is lower than for the South East and England and Wales, as is the percentage of pensioner households.

Table A.4 Dwelling types – Percentage 2001 and 2011

	West Berkshire		South	South East		England&Wales	
	2001	2011	2001	2011	2001	2011	
Detached	35.2	33.8	29.3	28.0	22,8	22.6	
Semi-detached	33.7	32.8	28.5	27.6	31.6	30.7	
Terraced	17.8	17.9	23.1	22.4	26.0	24.7

Caravan or mobile home		1.1		0.7		0.4	

Source: 2001 and 2011 Census

2001 data on types of accommodation shows that West Berkshire has a significantly higher percentage of detached and semi-detached dwellings than the South East region and than England and Wales overall, and a lower percentage of households living in flats or maisonettes. This remained the situation in 2011 but the percentage of households living in flats had increased considerably over the 10 year period.

Population and Housing A

	Percentage						
	West B	erkshire	Sout	South East		d&Wales	
	2001	2011	2001	2011	2001	2011	
Owner Occupied: owns outright	28.4	31.2	31.3	32.5	29.5	30.8	
Owner Occupied with mortgage or loan	45.7	38.5	41.9	35.1	38.8	32.7	
Shared Ownership		1.1		1.1		0.8	
Social Rented	13.8	13.8	14.0	13.7	19.2	17.6	
Private Rented	7.1	12.0	8.8	14.7	8.7	15.3	
Other rented	4.3	1.8	3.3	1.6	3.2	1,4	
Rent Free		1.6		1.3		1.4	

Table A.5 Household Tenure 2001 and 2011

Source: 2001 and 2011 Census

West Berkshire has high levels of home ownership. 69.7% of households were owner occupiers in 2011 compared with 63.5% for England and Wales. The percentage of households in social rented housing is significantly lower in West Berkshire and in the South East generally than in England and Wales. Of particular note is the increase in the percentage of households that are living in private rented accommodation in the period from 2001.

Table A.6 Average Household Size and Rooms per Household 2011

	Average Household Size	Average No. rooms per household	Average no. bedrooms per household
West Berkshire	2.4	6.0	3.0
South East	2.4	5.6	2.8
England and Wales	2.4	5.4	2.7

Source: 2011 Census

Average household size has fallen since 2001 but at a slower rate than was earlier projected. The effect of falling rates of household formation, particularly in the younger age groups is a particular issue considered in the Strategic Housing Market Assessment.

Homes in West Berkshire are on average larger than those in the South East and nationally, with an average of 3 bedrooms per household. The percentage of households living in overcrowded household spaces is low in West Berkshire.

A Population and Housing

Property Type	England Average Price	South East Average Price	West Berkshire Average Price
Flat/Maisonette	£225,047	£204,018	£202,600
Terraced House	£193,989	£266,840	£274,114
Semi-detached House	£223,117	£337,934	£340,633
Detached House	£363,267	£546,031	£566,075
All	£240,437	£319,318	£347,042

Table A.7 Land Registry Property Prices : Average price by property at March 2018

Source: UK House Price Index, Land Registry

House prices in West Berkshire remain higher than those for the south east region and country as a whole. This has led to a shortage of affordable homes for local people and key workers, which is reflected in the increase in the percentage of households now living in private rented accommodation.

Table A.8 Housing Permissions, Starts and Completions 2000/01 – 2017/18

Year	Net New Permissions (including prior approvals)	Starts	Under Construction at Year End	Berkshire Structure Plan/ South East Plan / Core Strategy Target –Annual Average	Net Completions

Duty to Cooperate B

Duty to Cooperate

Work on satisfying the Duty to Cooperate takes place on an ongoing basis. The way in which the Council has cooperated on strategic cross boundary issues with individual neighbouring authorities and other prescribed bodies in the period to March 2018 is set out below.

Basingstoke and Deane Borough Council

We continue to work with the Borough Council at both an officer and member level on dealing with specific issues, such as any cross boundary concerns relating to transport and traffic on the A339 or regarding AWE Aldermaston and AWE Burghfield. We coordinate the officer level off site planning group for AWE Aldermaston and AWE Burghfield. We also work together at both an officer and member level as constituent members of the North Wessex Downs AONB Council of Partners (CoP).

Berkshire Buckinghamshire and Oxfordshire Wildlife Trust (BBOWT)

We are committed at both an officer and member level to our partnership working with BBOWT. In January 2014 we entered into an innovative partnership with the organisation, which now manages our commons, country parks and nature reserves.

The overarching partnership agreement is for 50 years and in return for ongoing funding BBOWT delivers countryside management at the sites according to an agreed business plan and annual management plan. A Steering Group has been established as part of the governance arrangements which comprises senior officers and Council members/trustees. Part of our partnership working covers the Living Landscape Project.

Berkshire Local Nature Partnership (BLNP)

We are fully engaged with the BLNP at both a member and officer level. The Council's Executive Portfolio Holder for Countryside sits on the BLNP Executive Board and the Council's Ecologist sits on the BLNP Steering Group. The Partnership includes representatives from Natural England, Thames Water, Environment Agency, BBOWT and the AONB.

Berkshire Local Transport Body (BLTB)

The Berkshire Local Transport Body (BLTB) is a partnership of the six Berkshire authorities and Thames Valley Berkshire Local Enterprise Partnership which has been established to prioritise funding for local major transport schemes devolved from the Department for Transport. Slough Borough Council is the Accountable Body for the BLTB. The Council's Executive Portfolio Holder for Transport sits on the Body.

Berkshire Strategic Transport Forum (BSTF)

The Berkshire Strategic Transport Forum (BSTF) brings together the six Berkshire authorities and Thames Valley Berkshire Local Enterprise Partnership, the Department for Transport (DfT), Network Rail, Highways England, Heathrow Airport Limited, and some train and bus operating companies to discuss and consult on matters of mutual interest relating to strategic transport issues in Thames Valley Berkshire. It operates at two levels – one with elected members and business representatives, and the other with senior transport officers. The Berkshire Chief Executives' Group has recognised the importance of these arrangements by nominating one of its members to chair the officers' meeting and liaise with the LEP and the members. The membership of the BLTB and of the Berkshire Strategic Transport (Members') Forum is identical, and the two bodies operate in tandem with each other.

Environment Agency

The Environment Agency has responsibility for water quality and resources and we primarily work with it at an officer level.

Hampshire County Council

We primarily work with Hampshire County Council at both an officer and member level on dealing with transport issues relating to the A339 and the updating of the freight network. We also work together at both an officer and member level as constituent members of the North Wessex Downs AONB Council of Partners (CoP).

B Duty to Cooperate

Hart District Council

We continue to work with the District Council at an officer level, although a memorandum of understanding was prepared by Hart District Council in 2013 which made clear there were no strategic issues that needed to be considered between us.

Highways England

We continue to work together at both an officer and member level as constituent members of the Berkshire Strategic Transport Forum (BSTF).

Natural England

We continue to work together as constituent members of the North Wessex Downs AONB Council of Partners (CoP).

North Wessex Downs AONB Council of Partners (NWD AONB)

The Council of Partners includes member representatives (with officer support) of the nine local authorities which have the administrative responsibilities for the area covered by the North Wessex Downs. It also includes representatives of Natural England, community and parish councils, farming and rural businesses, nature conservation, historic environment, rural recreation and tourism. All have signed a Charter which sets out how we work together for the long term benefit of the AONB and all who live and work in it. The Council of Partners has no independent executive powers. Its work is carried out with the prior approval of its constituent local authorities and DEFRA (the funding partners). The Partnership is underpinned by a small AONB delivery team. Preparation of a Management Plan for the North Wessex Downs AONB (AONB) is a statutory requirement placed upon the constituent local authorities by the Countryside and Rights of Way (CROW) Act 2000. The review, production and publication of the Management Plan, together with the coordination of its delivery, has been delegated by the Council to the Council of Partners. The delivery of the AONB Management Plan is monitored by the Partnership through an annual review of the delivery of the AONB Business Plan, and achievements are reported through the AONB's Annual Report.

Office for Nuclear Regulation (ONR)

We primarily work with the ONR at an officer level through the off-site planning group for AWE Aldermaston and AWE Burghfield which consists of emergency planning officers from West Berkshire, Basingstoke and Deane Borough Council, Reading Borough Council and Wokingham Borough Council. This meets on a quarterly basis, with planning policy officers attending as appropriate.

Oxfordshire County Council

We work with the County Council on transport related issues at both an officer and member level. We do this primarily through the Berkshire Strategic Transport Forum (BSTF). We set up individual meetings to discuss specific issues when appropriate such as the updating of the freight network. We also work together at both an officer and member level as constituent members of the North Wessex Downs AONB Council of Partners (CoP).

Bracknell Forest Borough Council, Reading Borough Council, Royal Borough of Windsor and Maidenhead, Slough Borough Council and Wokingham Borough Council

We use the Memorandum of Understanding on Strategic Planning (MoU) signed by all the Berkshire unitary authorities as a starting point to guide our approach to cooperation. The MoU provides a framework for joint working between the Berkshire authorities and it allows refined Agreements to be agreed between individual authorities on specific areas where they consider it appropriate. In accordance with the MoU, which was formally adopted by West Berkshire Council on 19th December 2013, we use existing partnerships and working groups to take issues forward as appropriate. At an officer level these include the Berkshire Development Plans Group (DPG) which provides a co-ordinating role for planning policy officers across Berkshire to discuss matters of mutual interest on a bi monthly basis. This reports to the Berkshire Heads of Planning (BHoP) which provides a strategic planning policy overview for chief planning officers across Berkshire to discuss matters. To date, together with the Thames Valley Berkshire Local Economic Partnership, the Group has been instrumental in coordinating the work of the Strategic Housing Market Assessment (SHMA) and the identification of a Functional Economic Market Area.

BHoP periodically keeps Lead Councillors informed on how mechanisms for fulfilling the duty to co-operate are progressing and being taken forward. At a member level there are regular meetings of Berkshire Leaders (and occasional meeting of portfolio holders for specific issues). In addition, a Member Reference Group has been set up to move the outcomes of the SHMA forward into capacity work across the Housing Market Areas and beyond.

Duty to Cooperate B

The Council has been collaborating with the other authorities in the Western Berkshire Housing Market Area (Bracknell Forest Borough Council, Reading Borough Council and Wokingham Borough Council) to examine various options for accommodating new development across the housing market area and to see if there are any large scale opportunities which could be identified. In December 2016 we produced the non-statutory <u>West of Berkshire Spatial Planning</u> <u>Framework</u> together. This is a merely a statement of intent with the opportunities identified in the document to be explored and tested through the Local Plan processes of all the individual local authorities.

South Buckinghamshire District Council

We have primarily worked with the District Council at both an officer and member level during the preparation of the Berkshire SHMA once it was identified as part of the area covered. South Bucks later indicated that it did not want to be actively involved in the Berkshire SHMA but was pursuing alternative options which were linked to it taking forward a joint local plan with Chiltern District Council. It also declined to take part in the jointly commissioned work on the Functional Economic Market Area (FEMA).

South Oxfordshire District Council

We work with the District Council on transport and economic related issues at both an officer and member level. We do this primarily through the Berkshire Strategic Transport Forum (BSTF) and the Berkshire Thames Valley Local Economic Partnership. We also set up individual meetings with the District Council to discuss specific issues when appropriate, such as the cross boundary implications of housing growth. We also work together at both an officer and member level as constituent members of the North Wessex Downs AONB Council of Partners (CoP). The two Councils signed a Memorandum of Understanding in January 2018 which agreed that the districts lie in separate but adjoining Housing Market Areas and Functional Economic Market Areas. Both Councils also agreed that they would not be seeking for the other to meet any of its housing or employment needs.

Swindon Borough Council

We set up individual meetings to discuss specific issues when appropriate such as the updating of the freight network. We also work together at both an officer and member level as constituent members of the North Wessex Downs AONB Council of Partners (CoP).

Test Valley Borough Council

We set up individual meetings with the Borough Council to discuss specific issues when appropriate. We also work together at both an officer and member level as constituent members of the North Wessex Downs AONB Council of Partners (CoP). We have agreed that with the exception of our work in the North Wessex Downs, there are no strategic issues of concern at this stage.

Thames Valley Berkshire Local Economic Partnership (TVB LEP)

We are fully engaged at both an officer and member level with the TVB LEP. The Council's Portfolio Holder for Planning and Economic Development and the Chief Executive sit on the Forum and Executive Board respectively. Joint working has been focused on the production of a Strategic Housing Market Assessment (SHMA) and the analysis of our Functional Economic Market Area (FEMA).

Thames Water

As the statutory water and waste water provider we primarily work with Thames Water at an officer level.

Vale of White Horse District Council

We work with the District Council on transport and economic related issues at both an officer and member level. We do this primarily through the Berkshire Strategic Transport Forum (BSTF) and the Berkshire Thames Valley Local Economic Partnership. We also set up individual meetings with the Vale of White Horse District Council to discuss specific issues when appropriate, such as the cross boundary implications of housing growth. We also work together at both an officer and member level as constituent members of the North Wessex Downs AONB Council of Partners (CoP).

B Duty to Cooperate

Wiltshire Council

We work with Wiltshire Council particularly on transport related issues at both an officer and member level. We do this primarily through the Berkshire Strategic Transport Forum (BSTF). We set up individual meetings to discuss specific issues when appropriate such as the updating of the freight network. We also work together at both an officer and member level as constituent members of the North Wessex Downs AONB Council of Partners (CoP).

Glossary

Acronym	Term	Explanation
	Affordable Housing	Affordable housing is defined in the National Planning Policy Framework (NPPF) as: Social rented, affordable rented and intermediate housing, provided to eligible households whose needs are not met by the market. Eligibility is determined with regard to local incomes and local house prices. Affordable housing should include provisions to remain at an affordable price for future eligible households or for the subsidy to be recycled for alternative affordable housing provision. Social rented housing is owned by local authorities and private registered providers (as defined in Section 80 of the Housing and Regeneration Act 2008), for which guideline target rents are determined through the national rent regime. It may also be owned by other persons and provided under equivalent rental arrangements to the above, as agreed with the local authority or with the Homes and Communities Agency. Affordable rented housing is let by local authorities or private registered providers of social housing to households who are eligible for social housing. Affordable Rent is subject to rent controls that require a rent of no more than 80% of the local market rent (including service charges, where applicable). Intermediate housing is homes for sale and rent provided at a cost above social rent, but below market levels subject to the criteria in the Affordable Housing definition above. These can include shared equity (shared ownership and equity loans), other low cost homes for sale and intermediate rent, but not affordable rented housing. Homes that do not meet the above definition of affordable housing for planning purposes. Affordable housing is normally and preferably provided on-site and through Housing Associations (Registered Provider; RP). Affordable housing can sometimes be provided on sites owned by the Housing Associations, but more often the provision comes through obligations placed on developments by the planning system.
AMR	Annual Monitoring Report	Annual statement monitoring progress on the Local Plan and on the implementation of policies. Also known as Authority Monitoring Report.
AONB	Area of Outstanding Natural Beauty	A national designation to conserve and enhance the natural beauty of the landscape. The North Wessex Downs AONB covers 74% of West Berkshire.
	Brownfield Land	See 'Previously Developed Land'.
CS	Core Strategy	The overarching DPD in the Local Plan which sets out the overall spatial planning policies and objectives for an area.
	Council	In this context, the local planning authority; in this case West Berkshire Council. References to full Council are to the meeting of all elected members which is the Council's supreme decision making body.
	Density	A measurement of how intensively land is occupied by built development. For housing, measured in dwellings per net hectare

l

Acronym	Term	Explanation
DCLG	Department for Communities and Local Government	The job of the Department for Communities and Local Government is to help create sustainable communities, working with other Government departments, local councils, businesses, the voluntary sector, and communities themselves.
	Development Plan	The development plan sets out the policies and proposals for the development, conservation and use of land in a local planning authority's area. The development plan consists of adopted Local Plans (i.e. Development Plan Documents) and NDPs.
		The Development Plan for West Berkshire is currently made up of the following documents:
		 Core Strategy DPD West Berkshire District Local Plan 1991-2006 (Saved Policies 2007) Replacement Minerals Local Plan for Berkshire (Saved Policies) Waste Local Plan for Berkshire (Saved Policies) The South East Plan (May 2009), only insofar as Policy NRM6 applies
DPD	Development Plan Document	A statutory document which is the primary consideration in determining planning applications. It is required to undergo public testing (inquiry or examination before an independent inspector or panel).
DtC	Duty to Cooperate	Section 110 of the Localism Act places a legal duty on local planning authorities and other prescribed bodies to cooperate with each other when preparing DPDs in order to address strategic planning issues relevant to their areas. The Duty requires that councils engage constructively, actively and on an ongoing basis to develop strategic policies and adopt joint approaches to plan making. Paragraph 156 of the NPPF sets out the strategic issues where co-operation might be appropriate.
	Evidence Base	Background information on the District, including its needs and predictions of what might be needed in the future.
5YHLS	Five Year Housing Land Supply	This is a requirement for Local Planning Authorities to identify and update annually a supply of specific deliverable sites sufficient to provide five years' worth of housing against their housing requirements with an additional buffer of between 5-20% where appropriate (moved forward from later in the plan period) to ensure choice and competition in the market for land.
GF	Greenfield Land	Land which does not fall within the definition of previously developed land.
NPPF	National Planning Policy Framework	Planning guidance issued by the DCLG in March 2012, replacing PPSs. It sets out the government's planning policies and how these are expected to be applied.
	Gypsies, Travellers and Travelling Showpeople	 Annex 1 of the Government's 'Planning Policy for Traveller sites' (PPTS, August 2015) defines, Gypsies and Travellers for the purposes of planning policy as: "Persons of nomadic habit of life whatever their race or origin, including such persons who on grounds only of their own or their family's or dependants' educational or health needs or old age have ceased to travel temporarily, but excluding members of an organised group of travelling showpeople or circus people travelling together as such." In determining whether persons are "Gypsies and Travellers", for the purposes of planning policy, Annex 1 (of the PPTS) identifies that consideration should be given to the following: a) whether they previously led a nomadic habit of life b) the reasons for ceasing their nomadic habit of life

Glossary |

Acronym	Term	Explanation
		c) whether there is an intention of living a nomadic habit of life in the future, and if so, how soon and in what circumstances.
		Travelling Showpeople are defined in the PPTS for the purposes of planning policy as:
		"Members of a group organised for the purposes of holding fairs, circuses or shows (whether or not travelling together as such). This includes such persons who on the grounds of their own or their family's or dependants' more localised pattern of trading, educational or health needs or old age have ceased to travel temporarily, but excludes Gypsies and Travellers as defined above."
	Gypsy and Traveller Accommodation Assessment	Government guidance requires local planning authorities to assess need and use a robust evidence base to inform the preparation of local plans. The GTAA establishes the future need for Gypsy and Traveller site provision, along with the provision of plots for Travelling Showpeople within West Berkshire.
	Housing Trajectory	Diagram or table showing housing delivery and expected trends of development.
	Housing Market Area	A housing market area is a geographical area defined by household demand and preferences, reflecting the key functional linkages between places where people live and work.
LDS	Local Development Scheme	A public statement of the Council's programme for the production of development plan documents.
LEP	Local Enterprise Partnership	Voluntary partnerships between local authorities and businesses set up in 2011 by the Government to help determine local economic priorities and lead economic growth and job creation within the local area. They replaced the Regional Development Agencies. West Berkshire is covered by the Thames Valley Berkshire LEP
LP	Local Plan	The Local Plan is part of the overall Development Plan for West Berkshire, setting out local planning policies. It comprises a portfolio of DPDs that provides the framework for delivering the spatial strategy for the area.
NPPF	National Planning Policy Framework	A simplified set of national policies published by the Government in March 2012 that replaces the government guidance formerly contained in Planning Policy Guidance Notes (PPGs), Planning Policy Statements (PPSs), Minerals Planning Guidance Notes (MPGs) and Minerals Policy Statements (MPS').
OAN	Objectively Assessed Need	The 2012 NPPF (paragraph 47) states that 'to boost significantly the supply of housing, local planning authorities should: use their evidence base to ensure that their Local Plan meets the full, objectively assessed needs for market and affordable housing in the housing market area, as far as is consistent with the policies set out in this Framework.
	Permitted Development	Certain types of minor changes to houses or businesses can be made without needing to apply for planning permission. These changes can be made under "permitted development rights". They derive from a general planning permission granted not by the local authority but by Parliament.
	Pitch	Refers to Gypsy and Traveller site. An area of land on a site/development generally home to one household. Can be varying sizes and have more than one caravan.
	Planning and Compulsory Purchase Act 2004	Act which makes provision relating to spatial development and town and country planning; and the compulsory acquisition of land.
PPTS	Planning Policy for Traveller Sites	Government planning policy for traveller sites which should be read in conjunction with the National Planning Policy Framework.

L

Acronym	Term	Explanation
PPG	Planning Practice Guidance	On-line guidance produced by the Department for Communities and Local Government in March 2014 that supplements the NPPF and supersedes previous planning practice guidance.
PDL	Previously Developed Land	Also known as brownfield land. Defined by Government as "Land which is or was occupied by a permanent structure, including the curtilage of the developed land (although it should not be assumed that the whole of the curtilage should be developed) and any associated fixed surface infrastructure. This excludes: land that is or has been occupied by agricultural or forestry buildings; land that has been developed for minerals extraction or waste disposal by landfill purposes where provision for restoration has been made through development control procedures; land in built-up areas such as private residential gardens, parks, recreation grounds and allotments; and land that was previously-developed but where the remains of the permanent structure or fixed surface structure have blended into the landscape in the process of time" (NPPF Annex 2).
	Prior Notification	 Prior approval means that a developer has to seek approval from the local planning authority that specified elements of a development are acceptable before work can proceed. The matters for prior approval vary depending on the type of development. The matters which must be considered by the local planning authority in each type of development are set out in the relevant parts of Schedule 2 to the General Permitted Development Order. Prior Notification applications are required under the General Permitted Development Order. Prior Notification applications are required under the General Permitted Development order.
		3).
	Regulations	Town and Country Planning (Local Planning) (England) Regulations 2012 which set out the statutory requirements for preparing local plans.
	Rural Exception Sites	Defined in the NPPF as "Small sites used for affordable housing in perpetuity where sites would not normally be used for housing. Rural exception sites seek to address the needs of the local community by accommodating households who are either current residents or have an existing family or employment connection. Small numbers of market homes may be allowed at the local authority's discretion, for example where essential to enable the delivery of affordable units without grant funding".
	Rural Service Centres	Rural Service Centres form part of the settlement hierarchy. They provide a range of services and have reasonable public transport provision with opportunities to strengthen their role in meeting requirements of surrounding communities. The Rural Service Centres include Burghfield Common, Hungerford, Lambourn, Mortimer, Pangbourne and Theale.
	Saved Policies/Saved Plans	Several policies of the West Berkshire District Local Plan 1991-2006, the Replacement Minerals and Waste Local Plan for Berkshire and the Waste Local Plan for Berkshire have been saved and form part of the West Berkshire Development Plan.
S106	Section 106 Agreement	Legal agreements entered into under Section 106 of the Town and Country Planning Act 1990 (as amended) between a planning authority and a developer, or undertakings offered unilaterally by a developer to ensure that specific works are carried out, payments made or other actions undertaken which would otherwise be outside the scope of the planning permission. Also referred to as Planning Obligations. Section 106 agreements differ to CIL in that whilst they secure monies to be paid to fund infrastructure to support new developments, the agreements are negotiable and not all new development is subject to such agreements.

Acronym	Term	Explanation
	Service Villages	Service Villages form part of the settlement hierarchy. They include a more limited range of services and only have some limited development potential. Service Villages include Aldermaston, Bradfield Southend, Chieveley, Cold Ash, Compton, Great Shefford, Hermitage, Kintbury and Woolhampton.
	Settlement Boundary	Settlement boundaries identify the main built up area of a settlement within which development is considered acceptable in principle, subject to other policy considerations. While allowing for development, settlement boundaries protect the character of a settlement and prevent unrestricted growth into the countryside. They create a level of certainty about whether or not the principle of development is likely to be acceptable.
	Settlement Hierarchy	Set out within the Council's Core Strategy (policy ADPP1), settlements within the hierarchy are those which are the focus for development.
SAC	Special Areas of Conservation	Designated to protect the habitats of threatened species of wildlife under EU Directive 92/43.
SCI	Statement of Community Involvement	Adopted document setting out how the Council will involve the community in the planning process.
SPA	Special Protection Areas	Designated to protect rare and vulnerable birds under EC Directive 79/409.
SHLAA	Strategic Housing Land Availability Assessment	A document required by the NPPF. It identifies sites that have potential for housing development and assesses their development potential and when they are likely to be developed. The SHLAA does not allocate sites for development; rather it informs the preparation of the documents that do (ie. Housing Site Allocations DPD).
SHMA	Strategic Housing Market Assessment	Evidence document that provides detailed information about existing and future housing need in the local authority area and the wider housing market area.
	Statutory	Required by law (statute), usually through an Act of Parliament.
	Submission	Stage at which a prepared DPD is presented to Secretary of State.
	Sustainable Development	 The main dimensions of sustainable development as identified in the UK's strategy for sustainable development ('a better quality of life, a strategy for sustainable development' 1999) are as follows: social progress which recognises the needs of everybody effective protection of the environment prudent use of natural resources the maintenance of high and stable levels of economic growth and employment The NPPF contains a "presumption in favour of sustainable development" requiring
		plan making to positively seek opportunities to meet the development needs of the area with sufficient flexibility to adapt to rapid change and approve development proposals that accord with the development plan unless material considerations indicate otherwise.
SPD	Supplementary Planning Documents	A document which provides more detailed advice or guidance on the policies in the Local Plan.
	Thames Valley Berkshire Local Enterprise Partnership	The Local Enterprise Partnership (see LEP).

Acronym	Term	Explanation
TV ERC	Thames Valley Environmental Records Centre	TV ERC is a 'not for profit' operation run by a partnership of organisations that collect information about the natural environment.
	Windfall sites	Previously defined as sites which have not been specifically identified as available in the Local Plan process. They normally comprise previously-developed sites that have unexpectedly become available. These are sites that have not been identified through the SHLAA process or through a previous planning application. Revised definition in 2018 NPPF is ' Sites not specifically identified in the development plan'.
