Comments

I think that the neighbourhood plan requires a public hearing due to the impacts on the town and because comments previously raised at consultation stage have not been sufficiently addressed.

I am concerned about the suitability of Church Street and Smitham Bridge Road for increased traffic. Due to cars parked on Church St (primarily residents) there is often a build up of traffic and it is difficult to see if the road ahead is clear to pass. Cars often find themselves having to reverse and this will be significantly worse with increased traffic. The proposed entry point for the new housing is a single track road. This has not been sufficiently addressed in the plan, and traffic measures are only mentioned in relation to the build phase and not for afterwards.

There is also an industrial estate on Smitham Bridge Road which is increasingly busy with large lorries and further traffic will exacerbate this.

On an environmental impact this site was scored as highest impact, with the site on the SALISBURY ROAD scoring lowest impact. The documents are deliberately misleading on this point by omitting totals.

There is a history of flooding on the fields behind Smitham Bridge with some areas remaining under water for large periods of the autumn and winter. I don't feel this has been adequately addressed.

I think some of the 'gateways' into Hungerford are misleading. The North Standen Road approach (coming down from Froxfield) is very much a country route. It's single track and very rural, and I don't think it should be counted as a 'gateway' when considering access to the proposed housing on the land at Smitham Bridge Road. Realistically that is not how vehicles will approach - it will be coming up from Hungerford town centre. There was an incident last year where due to a road closure at a busy time (just as the workers were finishing at the industrial estate), a number of people were using this 'gateway'. This resulted in a huge tailback and a driver having to be towed as their car had got stuck on a verge.

We are aware that the land owner of the allotment site and the developer are using the allotments as a bargaining tool to obtain planning permission surely this should not be the case it should be judged on its merits not on profitability. This feels like a plan that benefits a few rather than truly looking at what would benefit the town as a whole.
